

James Njoroge

Frontend Developer

☎ (+254) 742-552-088 | ✉ njorogehjames20@gmail.com | 💻 jaymmyx | 🌐 Portfolio

Education

Jomo Kenyatta University of Agriculture & Tech

Juja, Kenya

BSc. in Mathematics & Computer Science (*Ongoing*)

Moringa School

Software Engineering Bootcamp

2021 – 2022

Projects

🏠 **Makao – Real Estate UI (Next.js)**

[Live](#)

- Built with Next.js + Tailwind; clean component structure and responsive grid
- Practicing layout logic, mobile-first design, and composability
- State & filters under construction (actively learning feature wiring)

🎧 **Audiophile – Product Page UI (Next.js)**

[Live](#)

- Static product showcase with reusable card layout
- Deep practice in semantic HTML, Tailwind spacing, and route handling
- Focused on polish and architecture, not full-stack boilerplate

Experience

Self-Directed Developer Journey

2023 – Present

- Rebuilding skills from the ground up through real UI work
- Refactored multiple projects from scratch to understand layout, routing, and interactivity
- Sharpening ability to debug, document, and design intentionally
- Avoiding tutorial trap — learning by building and shipping

Skills

Languages:

🔧 HTML5,

🎨 CSS3,

📜 JavaScript

Frameworks:

🌀 Next.js,

🌀 Tailwind CSS

Tools:

Git, Vercel, VS Code, GitHub, Markdown

Currently Learning:

API integration, forms, reusable component systems, auth flows

Philosophy

- No inflated claims — code speaks for itself.
- Refactor > Rush. I write to learn, not impress.
- Seeking builders, not resume-screeners. Let's ship.
